### **DETAILED ACTION**

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Johnston (4671388).

Johnston discloses a divided-type piston having a piston rod shaft (79) inserted into a center portion thereof and reciprocally moves within a cylinder, wherein a piston body is divided into an upper piston (41), an intermediate piston (47, 53), and a lower piston (59), and these pistons are integrally fixed and assembled by using a positioning pin (61), provided that the upper piston and the lower piston are formed with rider ring assembling grooves (holding rings 43 & 57), and the intermediate piston is formed with compression ring assembling grooves (holding rings 45 & 51).
